BUILDING OPERATIONS

SOUTH AUSTRALIA

DECEMBER QUARTER 1965

SCOPE This bulletin gives information about "new building" operations in South Australia; in addition to a summary for the period 1961 to December 1965 it shows details concerning houses and flats, other buildings, employment in the industry, and dwellings in local government areas. The information has been compiled from returns collected from all builders of new buildings.

All values in this issue are expressed in decimal currency (\$2 = £1).

DEFINITIONS New Building: Additions of \$10,000 and over to existing buildings (other than houses) are included, but minor additions, alterations, repairs and renovations, and all construction activity such as railways, bridges, earthworks, water storage, etc., are excluded.

Value: All values shown exclude the value of land and, except in Table 4, represent the value of buildings upon completion (see also "Completion"). Values shown in Table 4 represent the amount of work done on new buildings during the period and are not subject to the fluctuations from period to period noted in Table 3 in the values of "new buildings other than dwellings"; these fluctuations are partly the result of the unequal incidence of individual large contracts.

Commencement: A building is recorded as commenced when work on the foundation has begun.

Under Construction: Once commenced, even though work on it may have been temporarily suspended, a building is classified as "under construction" until its "completion".

Completion: A building is regarded as having been completed when the contractor has fulfilled the terms of the contract or in the case of an owner-built house when the dwelling is either completed or occupied (whichever occurs first). However, the value in all cases is that of the building as a finished project as planned.

COMMENTS 2,267 houses were commenced and 2,616 were completed during the three months ended December 1965. Commencements were 258 less than in the September quarter 1965, 616 less than in the December quarter 1964, and the lowest since the March quarter 1962 when 2,168 houses were commenced.

The number of flats commenced (300) was 116 less than in the preceding quarter and 277 less than the record of 577 commenced in December quarter 1964.

Persons recorded as employed on all jobs of builders of new buildings at 15th December was 14,584. This is 53 more than the previous quarter.

During the twelve months ended December 1965, 10,471 dwellings (82.1% of the State total) were completed in or near the Metropolitan Area; 50.9% were inside the Metropolitan Area but a further 31.2% were completed in the near metropolitan local government areas of Elizabeth, Munno Para, Noarlunga, Salisbury, and Tea Tree Gully. A further 511 dwellings were completed at Whyalla.

(a) Mainly of weatherboard construction.

(b) Brick and stone veneer not separately recorded, included with brick, concrete and stone.

OWNER-BUILT HOUSES

Of the 10,197 houses commenced during 1965, 621 (value \$5,093,000) were owner-built, i.e. being erected by the owner or under the owner's direction by sub-contract or day-labour but without the services of a contractor responsible for the whole job. During December quarter 1965 there were 174 (\$1,443,000) owner-built houses commenced and 221 (\$1,748,000) completed.

Other	2,116	2,475	2,583	2,961	3,072	2,930	2,705	2,849
Total	12,034	13,442	14,133	15,273	15,558	15,267	14,531	14,584

Note: Building employment covers all contractors and sub-contractors and employees of contractors, sub-contractors, and Government instrumentalities, who on the day specified were actually engaged on the construction, alteration, repair, and maintenance of buildings, but excludes persons working on owner-built houses or for contractors or sub-contractors who undertake only alterations, additions, repairs, and maintenance. Persons "actually engaged" include those temporarily laid off because of weather. Some duplication may occur as a result of frequent movement between jobs or because some persons (such as electricians) may work on several jobs which are under construction simultaneously.
